

Smarter than a pillbox.

It's a calendar

Each personalized cup is sorted and sealed by your pharmacist. Labeled with the date and time to take them. The right dose right at your fingertips.

It's a dose cup

Dose cups are organized in color coded calendar cards and ready for on-the-go, giving you a smarter way to stick to your schedule.

It's refills made easy

Your routine medications are aligned to one pickup date and prepared in advance for you. Fewer trips to the pharmacy means more time for you.

Ask your pharmacist how to get started with Medicine-On-Time.
